

# GRIFFON SECURITY TECHNOLOGIES LLC

## **About Griffon Security:**

Griffon Security Technologies was started in 2002 by Tim Barrett; a system designer with over 20 years of experience in the fields of access control and video surveillance. The company quickly grew, attracting the highest quality employees, a larger clientele, and investing partners. In 2011, with a formidable technical staff, a new business partner, full accounting & administrative staff, and a larger facility, Griffon Security re-emerged as Griffon Security Technologies LLC. Since that time, the company has consistently proven itself as the region's preeminent expert in systems integration.

## **Company Principal:**

Tim Barrett, Company Owner, CEO, and Chief Engineer, has over 30 years of experience designing and installing electronic control and monitoring systems. Tim has worked in some of the most challenging facilities in the nation and carved out a well-earned reputation for being a problem solver. He brings his considerable experience and expertise to bear on the current integration challenges experienced by today's security and facilities staff here in New England.

## **Key Employees:**

Operations Director: **Kraig Mason**  
Technical Services Manager: **John Spear**  
Office Manager: **Kelli Gough**  
Sales Engineer: **T.J. Tigerman**

## **Products & Services: (Division 28)**

- Physical Access Control
- Video Surveillance
- Patient Wandering & Infant Protection
- Design, Installation, & Integration of these Systems
- Service for new and existing

## **Areas Covered:**

Maine, New Hampshire, & Vermont

## **Past Performance:**

### *Critical Infrastructure:*

Griffon Security has very successfully serviced the Portland International Jetport for the past 7 years and has recently been awarded the contract to continue providing access control and video surveillance service through the end of 2016.

### *Highest Security:*

Griffon Security has successfully expanded and updated Sig Sauer's (firearms manufacturer) access and video systems in the New Hampshire area. This includes *highly* secure perimeters, pervasive video surveillance, custom PLC controllers, custom programming, and safety-oriented system redundancies, all monitored from a single command center.

### *Scattered Sites:*

Griffon Security has successfully installed and integrated over 400 different sites throughout Maine, New Hampshire, & Vermont for Fairpoint Communications. Each site has a unique combination of access control and/or video surveillance that is monitored and administered from a single location.
